

Ideas for genomics project: exchange genomes easily [SafeGenome\GenomeMarketplace].

In a series of posts tagged with [ideas-for-genomics-project](http://scalaakka.blogspot.com/search/label/ideas-for-genomics-project) [http://scalaakka.blogspot.com/search/label/ideas-for-genomics-project] I am describing ideas for business that can be build in area of genomics. If you like those ideas and you would like to join as an investor, co-founder or consultant please contact me at LinkedIn [https://pl.linkedin.com/pub/artur-stanek/a5/643/691] or just drop me an email, stanek.artur@gmail.com [mailto:stanek.artur@gmail.com] .

Idea "GenomeMarketplace" is about providing a tool for easy and safe exchanging genomes and it's [meta information](http://scalaakka.blogspot.com/2015/11/ideas-for-genomics-project-genome-meta.html) [http://scalaakka.blogspot.com/2015/11/ideas-for-genomics-project-genome-meta.html] .

It can become a standard tool for exchanging genomes between scientists. For those who donate genomes and meta for free all functionalities should be provided for free. For others it can help to refund costs spend on sequencing and/or meta-information harvesting.

[GenomeReductor](http://scalaakka.blogspot.com/2015/10/idea-2-for-genomics-project-allow.html) [http://scalaakka.blogspot.com/2015/10/idea-2-for-genomics-project-allow.html] can be used to offer just some parts of genome and [GenomeSigner](http://scalaakka.blogspot.com/2015/10/idea-1-for-genomics-project-signing-and.html) [http://scalaakka.blogspot.com/2015/10/idea-1-for-genomics-project-signing-and.html] can be used to sign each copy.

New owners can give back new meta information - if they will have any - and quality of those information can be rated, just as we rate sellers or products on [Ebay](http://www.ebay.com/) [http://www.ebay.com/] 's like services.
